Sale in Finland, in France and in Italy

Units of this Fund may be sold in these countries.

The sales prospectus, the KIID, management regulations, annual and semi-annual reports as well as the portfolio movements of the investment fund mentioned in this publication are available free of charge at the sales agencies and at the registered office of the Management Company.

Features of the Fund

UBS (Lux) Institutional Fund (hereinafter called the "Fund") offers investors a range of different subfunds ("umbrella construction"), which invest in accordance with the investment policy described in the sales prospectus. The sales prospectus, which contains specific details on each subfund, will be updated upon the inception of each new subfund.

The Fund was established as an open-ended investment fund without legally independent status in the form of a collective investment fund (fonds commun de placement, FCP) pursuant to Part I of the Luxembourg law relating to Undertakings for Collective Investment of 17 December 2010. UBS (Lux) Institutional Fund originally established under the title UBS Brinson Portfolio has been approved on 28 December 1998. The activities of the UBS Institutional Fund Management Company S.A. in its function as Management Company of the UBS (Lux) Institutional Fund expired with effect as of 30 September 2010. On 1 October 2010 UBS Fund Management (Luxembourg) S.A. has taken over the function of the Management Company.

The Fund has no legal personality as an investment fund. The entire assets of each subfund are the undivided property of all investors who have equal rights in proportion to the number of units, which they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the fund are managed by UBS Fund Management (Luxembourg) S.A. as in-house funds in the interest and for the account of the unitholders.

The Management Regulations give the Management Company the authority to establish different subfunds for the Fund as well as different unit classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional unit class is issued.

There is no limit on the size of the net assets, the number of units, number of subfunds or the duration of the Fund.

The fund forms an indivisible legal entity. With respect to the unitholders, each subfund is regarded as being separate from the others. The assets of a subfund can only be used to offset the liabilities, which the subfund concerned has assumed.

Given that there is no segregation of liabilities between unit classes, there is a risk that, under certain circumstances, currency hedging transactions in relation to unit

classes which hedge the foreign currency exposure of the respective subfund against their respective reference currency could result in liabilities which might affect the net asset value of the other unit classes of the same subfund.

The Management Company can issue several classes of units for each of the subfunds. All unit classes presently in issue are reserved to institutional investors having concluded an agreement (such as, but not limited to a portfolio management agreement) with UBS Asset Management or one of its authorised delegates.

Currently, the following unit classes are offered:

- Unit Class XA and YA for which the portfolio management, custody, distribution and administration fees are charged outside the fund, directly at the level of the agreement concluded by the investor.
- Unit Class FA, for which the portfolio management, custody, distribution and administration fees are charged outside the fund, directly at the level of the agreement concluded by the investor. These units will have an issue price of 10 000 (in each fund's reference currency). This class aims exclusively at financial products (i.e. Fund-of-Funds or other pooled structures according to various legislations). This unit class has a high initial value aiming at facilitating day-to-day operations of these pooled structures. In addition, it features the same characteristics as the unit class XA.
- Unit Class BA, for which the portfolio management and distribution fees are charged outside the Fund, directly at the level of the agreement concluded by the investor. Unit Class BA only bears operational and administrative expenses.
- Unit Class DA, for which the portfolio management and distribution fees are charged outside the Fund, directly at the level of the agreement concluded by the investor. Unit Class DA only bears operational and administrative expenses. Unit Class DA hedges the foreign currency exposure of the respective subfund against their respective reference currency.
- Unit Classes AA, AD, AA-T1, AD-T2 and CA for which the flat fee is directly deducted from the Fund's NAV and covers all expenses.
- Unit Class CA-T1, for which the portfolio management and distribution fees are charged at the subfund's level, in addition to the normal operational and administrative expenses. Unit Class CA-T1 hedges the foreign currency exposure of the respective subfund against their respective reference currency.

- Unit Classes CA and YA hedge the foreign currency exposure of the respective subfund against their respective reference currency.
- Unit Classes AA, BA, DA, XA, FA, YA, AA-T1, CA-T1 and CA are reinvesting their dividends and other income, rather than distributing it on a regular basis.
- Unit Class AD-T2 is a distributing unit, which entitle the unitholder to an annual distribution.
- Unit Class AD is a distributing unit, which entitle the unitholder to a quarterly distribution.

Additional characteristics of unit classes:

Currency

The unit classes may be denominated in AUD, CAD, CHF, CZK, EUR, GBP, HKD, JPY, PLN, RMB, RUB, SEK, SGD or USD.

hedging

For unit classes whose reference currencies are not identical to the currency of account of the subfund ("unit classes in foreign currencies"), the fluctuation risk of the reference currency price for those unit classes is hedged against the currency of account of the subfund. Provision is made for the amount of the hedging to be between 95% and 105% of the total net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will then take all the necessary steps to bring the hedging back within the aforementioned limits. The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund's currency of account.

RMB denominated unit classes

Investors should note that the Renminbi (ISO 4217 currency code: CNY), abbreviated RMB, the official currency of the People's Republic of China (the "PRC"), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Unit classes denominated in RMB are units whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

RMB convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore regulatory or governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to the subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company.

The hedging of the fluctuation risk will be carried out as described above under "hedging".

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the reinvestment risk due to liquidation of a unit class and/or the subfund in accordance with the section "Liquidation and merging of the Fund and its subfunds or unit classes" of the sales prospectus.

seeding

Units in classes with “seeding” in their name are only offered for a limited period of time. At the end of this period, no further subscriptions are permitted unless the Management Company decides otherwise. However, these units may still be redeemed in accordance with the conditions for the redemption of units. Unless the Management Company decides otherwise, the smallest tradeable unit, the initial issue price and the minimum subscription amount are those of the aforementioned asset classes.

Generally, the unitholder of a subfund may convert any time into another subfund or unit class of the same subfund.

However, the following exceptions apply:

- The conversion is only possible into units issued; no conversion is possible if the issue of units by the subfund has been suspended.
- The right to convert units is subject to compliance with any conditions applicable to the class or category of unit into which conversion is to be effected.
- Conversions can only be made for a definite number of units.
- Due to technical restrictions conversions from the following classes: AA, AD, CA, DA, YA, BA and XA units into the following classes: AA-T1, CA-T1 and AD-T2 units and vice versa are not possible.
- Conversions into classes BA, DA, YA and XA units will only be executed at the Management Company’s discretion, under the condition that the investor has signed an agreement as defined in the prospectus.

There is no provision in the Management Regulations for a meeting of the unitholders.

The financial year of the Fund ends on 31 December.

The acquisition of fund units implies acceptance of the Management Regulations by the unitholder.

Information on whether a subfund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports shall be available free of charge to unitholders at the registered office of the Management Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current sales prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the Net Asset Value

The net asset value and the issue and redemption price per unit of the different classes of any subfund are expressed in the currency of account of the subfund or the unit class concerned and are calculated every bank business day by dividing the overall net assets of the subfund to which the respective unit class is assigned by the number of units in circulation in the relevant class of this subfund.

However, the net asset value of a unit may also be calculated on days on which no units are issued or redeemed in accordance with the preceding section. Such net asset value may be published but may only be used for performance calculations and statistics or fee calculations, but in no case as a basis for subscription and redemption orders.

The percentage of the overall net asset value to be assigned to a subfund's unit class is determined of the relationship between the units in circulation in each class and the total number of units in circulation of the subfund. This percentage rate changes in accordance with distributions made and the issue and redemption of units as follows:

- Each time a distribution is made on units of the following classes "AD-T2", the net asset value and issue and redemption price of units in this class are reduced by the amount of the distribution (which leads to a reduction in the percentage of the net asset value attributed to the class concerned). Meanwhile the net asset value of the other unit classes remains the same (leading to an increase in the percentage of the net asset value attributed to these classes).
- Each time units are issued or redeemed, the net asset value attributable to the unit class concerned is increased or reduced by the amount received or paid out.

If the value of the portion of a unit class on the total net asset value of a subfund falls below or has not reached a certain level set by the Board of Directors as the minimum level for an economically efficient management of this unit class, the Board of Directors may decide to redeem all units of this class - upon payment of the redemption price - on a business day to be determined by the Board of Directors. In no event, investors of both the class concerned and other investors in the relevant subfund shall bear any additional

costs or suffer any other financial disadvantages as a result of this redemption. Where applicable, the swing pricing described in the section "Net asset value, issue, redemption and conversion price" of the prospectus shall apply.

For subfunds with several unit classes denominated in different currencies, unitholders may, in principle, receive the equivalent value of their redemption in the currency of the respective unit class only.

Subject to applicable laws and regulations, the Depositary and/or the agents entrusted with paying the redemption proceeds may, at their discretion and upon investors' request, make the payment in currencies other than the currency of account of the respective subfund and the currency of the unit class redeemed. The exchange rate used will be determined by the respective agent on the basis of the bid-ask spread of the relevant currency pair. Investors shall bear all fees associated with currency exchange. These commissions, as well as any taxes, commissions and other fees incurred in the respective distribution countries will be charged to the relevant investor and deducted from the redemption proceeds.

For all subfunds the Single Swing Pricing methodology is applied.

If there were Single Swing Pricing adjustments to the net asset value at the end of the period, this can be seen from the most important figures section of the net asset value information of the subfunds. The issue and redemption price per share represents the adjusted net asset value.

b) Valuation of the securities' portfolio

- The value of any cash – either in hand or on deposit – as well as bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- Securities, derivatives and other investments listed on an official stock exchange are valued at the last known market prices. If the same security, derivative or other investment is quoted on several stock exchanges, the last available quotation on the stock exchange that represents the major market for this investment will apply. In the case of securities, derivatives and other investments where trading of these assets on the stock exchange is thin but which are traded between securities dealers on a secondary market using standard market

price formation methods, the Management Company can use the prices on this secondary market as the basis for their valuation of these securities and other investments. Securities, derivatives and other investments that are not listed on a stock exchange, but that are traded on another regulated market which is recognised, open to the public and operates regularly, in a due and orderly fashion, are valued at the last available price on this market.

- Securities and other investments that are not listed on a stock exchange or traded on any other regulated market, and for which no reliable and appropriate price can be obtained, will be valued by the Management Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- Units or shares of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCI) will be valued at their last net asset value. Certain units or shares of other UCITS and/or UCI may be valued based on an estimate of the value provided by a reliable price provider independent from the target fund's investment manager or investment adviser (Estimated Pricing).
- The valuation of derivatives that are not listed on a stock exchange (OTC derivatives) is made by reference to independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation price obtained will be verified by employing methods of calculation recognised by the Management Company and the Auditor, based on the market value of the underlying instrument from which the derivative has been derived.
- Securities, money market instruments, derivatives and other investments that are denominated in a currency other than the reference currency of account of the relevant subfund and which are not hedged by means of currency transactions are valued at the middle currency rate (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.
- The value of swap transactions is calculated by an external service provider, and a second independent valuation is made available by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the applicable UBS Valuation Policy.
- Time deposits and fiduciary investments are valued at their nominal value plus accrued interest.
- The value of money market instruments which are not listed on a stock exchange or traded on another regulated market open to the public is based on the appropriate curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying

borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower.

In the case of extraordinary circumstances, additional valuations, which will affect the prices of the units to be subsequently issued or redeemed, may be carried out within one day.

c) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

d) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

e) Net realized profit (loss) on sales of securities

The realized profits or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

f) Swaps

The Fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

Changes in unrealized profits and losses are reflected in the statement of operations under "Unrealized appreciation (depreciation) on Swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on Swaps" in the statement of operations.

The Management Company is authorised to apply other generally recognised and auditable valuation criteria in good faith in order to achieve an appropriate determination of the valuation of the net asset value if, due to extraordinary circumstances, a valuation in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

g) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities, derivatives and other investments held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates prevailing on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates prevailing at payment date. Profit or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

h) Accounting for securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction date.

i) Combined financial statements

The Combined financial statements are expressed in EUR. The various items of the Combined statement of net assets and the Combined statement of operations at 30 June 2020 of the investment company are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the following exchange rates.

The following exchange rates were used for the conversion of the Combined financial statements as of 30 June 2020:

Exchange rates		
EUR	1 = CHF	1.064241
EUR	1 = USD	1.123150

j) Receivable on securities sales,

Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

k) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

Note 2 – Expenses paid by the Fund

For the management, administration, portfolio management and distribution of the Fund (if applicable), as well as for all the tasks of the Depositary, such as the safekeeping and supervision of the Fund's assets, the handling of payment transactions and all other tasks listed in the section "Depositary and main paying agent" of the sales prospectus, a maximum flat fee based on the net asset value of the Fund is charged to the Fund in accordance with the following provisions: this fee is charged to the Fund's assets on a pro rata basis upon every calculation of net asset value and paid on a monthly basis (maximum flat fee). The relevant maximum flat fee will only be charged upon launch of the corresponding unit classes.

UBS (Lux) Institutional Fund	Unit classes	Maximum flat fee p.a. ⁴⁾

	AD-T2 ¹⁾	max. 0.565%

¹⁾ For this unit class, the portfolio management and distribution fees are charged at the subfund's level, in addition to operational and administrative expenses, calculated on the average net assets attributable to class AA units and payable monthly.

²⁾ For this unit class, the portfolio management and distribution fees are charged outside the Fund, directly at the level of the agreement concluded by the investor with UBS Asset Management or one of its authorised delegates. Unit class BA only bears operational and administrative expenses. If a unitholder terminates the agreement with UBS Asset Management or one of its authorised delegates, the net asset value of the units will be redeemed to the unitholder.

³⁾ For these unit classes, the fees for portfolio management, custody and administration and distribution are charged outside the fund, directly at the level of the agreement concluded by the investor with UBS Asset Management or one of its authorised delegates. If a unitholder terminates the agreement with UBS Asset Management or one of its authorised delegates, the net asset value of the units will be redeemed to the unitholder.

⁴⁾ Calculated on the average total net assets of the subfund and paid monthly.

* Instead of a swinging single pricing the investors are subject to a transaction fee of maximum 1% of all purchases and redemptions of shares. The proceeds of the transaction fee are retained by the subfund to offset trading costs associated with purchases and redemptions to protect the other investors from asset dilution. The transaction fee will be waived in case of a subscriptions or redemptions in kind.

** Costs in connection with index license payments may be occurred and will be charged at subfund's level.

The maximum flat fee does not include the following fees and additional expenses, which are also charged to the Fund's assets:

- all additional expenses related to management of the Fund's assets for the sale and purchase of assets (bid/offer spread, brokerage fees in line with the market, commissions, fees, taxes, levies etc.). These expenses are generally calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the Single Swing Pricing principle pursuant to the sections "Net asset value, issue, redemption and conversion price" and "Conditions for the issue and redemption of units";

- b) fees of the supervisory authority for the establishment, amendment, liquidation and merger of the Fund, as well as all fees of the supervisory authorities and any stock exchanges on which the subfunds are listed;
- c) auditor's fees for the annual audit and certification in connection with the establishment, amendment, liquidation and merger of the Fund, as well as any other fees paid to the auditor for the services it provides in relation to the administration of the Fund and as permissible by law;
- d) fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, amendment, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
- e) costs for the publication of the Fund's net asset value and all costs for notices to investors, including translation costs;
- f) costs for the Fund's legal documents (prospectuses, KIID, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
- g) costs for the Fund's registration with any foreign supervisory authorities, if applicable, including fees, translation costs and fees for the foreign representative or paying agent;
- h) expenses incurred through use of voting or creditors' rights by the Fund, including fees for external advisers;
- i) costs and fees related to any intellectual property registered in Fund's name;
- j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager(s) or Depositary for protecting the interests of the investors;
- k) if the Management Company participates in class-action suits in the interests of investors, it may charge the Fund's assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable and disclosed, and taken into account in the disclosure of the Fund's total expense ratio.

The Management Company may pay retrocessions in order to cover the distribution activities of the Fund.

All taxes levied on the income and assets of the Fund, particularly the *taxe d'abonnement*, will also be borne by the Fund.

Operational and administrative expenses are allocated among the subfunds, the categories and the classes of units pro rata to their respective net assets (or in a fair and reasonable manner as determined by the Management Company).

When investing in shares of Funds which are managed by UBS AG or a company it controls, no issue or

redemption commission is chargeable on subscription to or redemption of these shares. The upper limit for management fees of target funds in which the subfunds' assets are invested amounts to a maximum of 3%, taking into account any trail fees.

If a subfund invests in funds which refund either entirely or partly the fees charged to their assets by means of payment, such payments will be added in full to the assets of the subfunds concerned.

The details of expenses paid by the relevant subfund are disclosed in the KIID.

Note 3 – Taxe d'abonnement

The Fund is subject to Luxembourg legislation. In conformity with current legislation in the Grand Duchy of Luxembourg, the Fund is not subject to any Luxembourg withholding, income, capital gains or wealth taxes. The Fund is, however, subject to the Grand Duchy of Luxembourg's "*taxe d'abonnement*" of 0.01% p.a. on total net assets which is payable at the end of every quarter. This tax is calculated on the net assets of each subfund at the end of every quarter.

Note 4 – Other income

Other income mainly consist of income resulting from Single Swing Pricing.

Note 5 – Income Distribution

In accordance with article 10 of the Management Regulations, once the annual accounts are closed the Management Company will decide whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the Fund falling below the minimum amount of Fund assets prescribed by law. If a distribution is made, payment will be effected no later than four months after the end of the financial year.

The Management Company is authorized to pay interim dividends and to suspend the payment of distributions.

Distributions are made upon submission of the relevant coupons. The Management Company determines the method of payment.

Note 6 – Commitments on Financial Futures

Commitments on Financial Futures per subfund and respective currency as of 30 June 2020 can be summarised as follows:

UBS (Lux) Institutional Fund	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
– Equities Europe (ex Switzerland) Passive	209 176.41 CHF	- CHF
– Equities Europe (ex Switzerland) Passive II	209 176.41 CHF	- CHF
– Key Selection Global Equity	66 058 020.00 USD	- USD

UBS (Lux) Institutional Fund	Financial Futures on bonds (bought)	Financial Futures on bonds (sold)
– Euro Bonds	- EUR	11 141 380.00 EUR

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

Note 7 – Significant event during the reporting period

On March 11, 2020, the World Health Organization declared the outbreak of COVID-19 to be a pandemic. It exists a continuing concern about the effects of this virus on the global economy and as a result of this uncertainty the valuation of assets in this report can deviate significantly from the value of actual sales of these assets. Significant corrections in the market and the increased financial market volatility in recent months could significantly affect the fund in terms of future valuations of its assets. The Board of Directors and the Investment managers continue to monitor the efforts of government to reduce the spread of the virus and hence the economic impact on the portfolios and the fund itself.

There is no evidence that the going concern assumption made by the Board of Directors when preparing the financial statements of the fund is inappropriate.

Note 8 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the unitholders, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary can elect to make themselves and the fund subject to the jurisdiction of the countries in which the fund units were bought and sold.

The English version of these financial statements is the authoritative version. However, in the case of units sold to investors from the other countries in which Fund units can be bought and sold, the Management Company and the Depositary may recognize approved translations (i.e. approved by the Management Company and the Depositary) into the languages concerned as binding upon themselves and the Fund.

Note 9 – Securities Lending

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

Securities Lending

Appendix

2) Securities Financing Transaction Regulation (SFTR)

The Fund engages in Securities Financing Transactions (hereafter “SFT”) (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

Global Data

The following table details the value of securities lending as a proportion of the subfund’s Net Assets Value as well as a proportion of the total lendable securities, as at 30 June 2020.

UBS (Lux) Institutional Fund	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
– Emerging Markets Equity	8.59%	8.79%
– Euro Bonds	18.14%	18.56%
– Key Selection European Equity	11.17%	11.69%
– Key Selection Global Equity	10.74%	10.88%

The total amount (absolute value) of the securities lent is disclosed in Note 9 – Securities Lending.

Data on collateral reused

Amount of collateral reused, compared with the maximum amount disclosed to investors: None

Cash collateral reinvestment income to the Fund: None
