Hedged Share Classes are available to investors on several sub-funds. For such classes of Shares, The Fund may hedge the currency exposure of classes of Shares denominated in a currency other than the base currency of the relevant sub-fund, in order to attempt to mitigate the effect of fluctuations in the exchange rate between the Share Class currency and the base currency.

#### (b) Invesco UK Equity Income Fund

From 28 February 2019 to 18 March 2019, the Invesco UK Equity Income Fund was a feeder fund of Invesco Income Fund (the "Master Fund"), a sub-fund of Invesco UK 2 Investment Series, an open-ended investment company with variable capital governed by the provisions of the Directive 2009/65/EC, incorporated in England and Wales and authorised by the Financial Conduct Authority (the "Master Fund").

According to the UCITS Directive, the Feeder Fund must be invested in a sub-fund constituted as a UCITS. In the context of Brexit, the UK-based UCITS will no longer be considered as a UCITS as the UCITS Directive will no longer apply to the United Kingdom when the United Kingdom will leave the European Union. To address such a change the Directors decided to change the set-up of the Feeder Fund from investment through the Master Fund (Invesco Income Fund (UK)) to direct investment. On 18 March 2019, the Invesco UK Equity Income Fund ceased to operate as a master feeder structure.

The process to move the Feeder Fund to a direct investment vehicle occurred on 18 March 2019 and the investment objective and policy was also amended in order to be aligned with the previous Master Fund. Refer to the Invesco Funds Prospectus for the Investment Objective and Policy of the Fund.

### 2. Summary of Significant Accounting Policies

(a) The accompanying financial statements have been prepared in accordance with the format prescribed by Luxembourg regulations. Combined figures appearing in the Statement of Net Assets are for statistical purposes only and should not be used by investors with holdings in one or more sub-funds.

#### (b) Valuation of investments

Investments, including financial derivative instruments, are valued on the basis of the latest dealing price or the latest available midmarket quotation (the midpoint between the latest quoted bid and offer prices) of the securities on the relevant securities market on which the investments of the Fund are traded, quoted or dealt as at the Valuation Point on that day. Where investments of a sub-fund are both listed on a stock exchange and dealt by market makers outside the stock exchange on which the investments are listed, then the SICAV will determine the principal market for the investments in question and they are valued at the latest available price in that market. Securities which are not quoted or dealt in any stock exchange but which are dealt in on any other regulated market are valued in a manner as near as possible to that described above. If no price quotation is available for any of the securities held by a sub-fund or if the value as determined pursuant to the points above is not representative of the fair market value of the relevant securities, the value of such securities is based on the reasonably foreseeable sales price determined prudently and in good faith. Short-term money-market Instruments are valued based on amortised cost method.

The financial statements have been prepared on the basis of the last Net Asset Values determined in the accounting period. In accordance with the Prospectus, Net Asset Values were calculated by reference to the latest available prices at 1.00 p.m. (Luxembourg time) on 28 February 2020 for all the Invesco sub-funds apart from Global Targeted Returns Select II Fund which is valued at 4 p.m. Eastern Standard Time (EST) on 28 February 2020.

#### (c) Impact on Values

By way of information, if the Fund had calculated the Net Asset Values solely with a view to publication, the market prices used to value the investment portfolio would have been the closing prices on 29 February 2020 for the entire investment portfolio, including the American and European equities. However, these Net Asset Values would not have been significantly different from those shown in these audited financial statements except for the following sub-funds:

- Invesco US Structured Equity Fund; a decrease in the Net Asset Value of approximately 0.68% would have been observed.
- Invesco Greater China Equity Fund; an increase in the Net Asset Value of approximately 1.21% would have been observed.
- Invesco Global Structured Equity Fund; a decrease in the Net Asset Value of approximately 1.23% would have been observed.
- Invesco Global Consumer Trends Fund; an increase in the Net Asset Value of approximately 1.82% would have been observed.
- Invesco Global Income Real Estate Securities Fund; a decrease in the Net Asset Value of approximately 1.18% would have been observed.
- Invesco Energy Fund; an increase in the Net Asset Value of approximately 2.39% would have been observed.
- Invesco Asia Opportunities Equity Fund; an increase in the Net Asset Value of approximately 0.94% would have been observed.
- Invesco Asia Consumer Demand Fund; an increase in the Net Asset Value of approximately 0.88% would have been observed.
- Invesco Pan European Small Cap Equity Fund; an increase in the Net Asset Value of approximately 0.57% would have been observed.
- Invesco Gold & Precious Metals Fund; a decrease in the Net Asset Value of approximately 6.67% would have been observed.
- Invesco Latin American Equity Fund; an increase in the Net Asset Value of approximately 1.39% would have been observed.
- Invesco Emerging Market Corporate Bond Fund; a decrease in the Net Asset Value of approximately 0.60% would have been observed.
- Invesco US Value Equity Fund; an increase in the Net Asset Value of approximately 0.63% would have been observed.
- Invesco Global Equity Income Fund; an increase in the Net Asset Value of approximately 0.51% would have been observed.
- Invesco China Focus Equity Fund; an increase in the Net Asset Value of approximately 1.05% would have been observed.
- Invesco US High Yield Bond Fund; a decrease in the Net Asset Value of approximately 0.73% would have been observed.
- Invesco US Equity Fund; a decrease in the Net Asset Value of approximately 1.33% would have been observed.
- Invesco Emerging Market Flexible Bond Fund; a decrease in the Net Asset Value of approximately 0.63% would have been observed.
- Invesco Euro High Yield Bond Fund; a decrease in the Net Asset Value of approximately 0.84% would have been observed.
- Invesco Global High Income Fund; a decrease in the Net Asset Value of approximately 0.80% would have been observed.
- Invesco Emerging Markets Bond Fund; a decrease in the Net Asset Value of approximately 0.76% would have been observed.

Any surplus or deficit on sales of investments is determined on the basis of average cost.

#### (e) Income from investments

Dividend income is accounted for on an ex-dividend basis. Income arising on fixed interest securities and deposit interest is accrued on a day-to-day basis. Amortisation/Accretion of Premium/Discount is disclosed under the Income section on the Statement of Operations and Changes in Net Assets (disclosed at year end only). Amortisation is the process of decreasing the book value of a bond purchased at a premium until the book value is equal to the par value at the time of maturity. As the book value is reduced, it is accounted for as a reduction in net investment income. Accretion is the process of writing up the book value of a bond purchased at a discount. As the book value is increased, it is accounted for as an increase in net investment income. The Amortisation/Accretion approach provides a consistent accounting treatment over the life of bond-like assets of the capital gain or loss associated with holding these assets.

#### (f) Foreign exchange

Transactions in currencies other than the designated currency for each sub-fund are translated at the rates of exchange ruling at the time of the transactions. The market value of the investments and other assets and liabilities in currencies other than the designated currency for each sub-fund are translated at the rates of exchange ruling at the period end.

### 2. Summary of Significant Accounting Policies (continued)

#### (g) Expenses allocation

Where the Fund incurs an expense which relates to a particular sub-fund, such expense is allocated to the relevant sub-fund. In cases where an expense cannot be considered as being attributable to a particular sub-fund, such expense is allocated between sub-funds on the basis of their respective Net Asset Values.

#### (h) Preliminary expenses

The preliminary expenses will be amortised over the first 5 years. Sub-funds are subject to a maximum amortisation in any accounting year of 0.05% of the average Net Asset Value. Any unamortised expenses at the end of the 5 years or liquidation date will be borne by the Management Company. Preliminary Expenses for Funds launched after October 2015 will be absorbed by the Management Company. During the year ended 29 February 2020, there are no preliminary expenses.

#### (i) Forward foreign exchange contracts

The unrealised gain or loss on open forward foreign exchange contracts is calculated as the difference between the contracted rate and the rate to close out the contract and is disclosed in the Statement of Net Assets (see note 8 for details). Realised gains or losses include net results on contracts which have been settled or offset on other contracts and are recorded in the Statement of Operations and Changes in Net Assets (disclosed at year end only). The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on forward foreign exchange contracts" (see note 8 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on forward foreign exchange contracts" (disclosed at year end only).

Non-Deliverable Forwards ("NDF") are short-term forward contracts on thinly traded or non-convertible foreign currencies. Those contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from NDF are included in the Statement of Net Assets. The NDF are normally quoted and settled in USD. The NDF are disclosed together with other forward foreign exchange contracts in note 8.

#### (j) Futures contracts

A futures contract is a legal agreement to buy or sell a particular commodity or financial instrument at a predetermined price at a specified time in the future. Futures contracts are initially recognised at cost and subsequently are re-measured at market value. Market values are obtained from quoted market prices and exchange rates. All futures contracts are carried in assets when amounts are receivable by the Fund and in liabilities when amounts are payable by the Fund. Changes in market values of futures contracts are included in the Statement of Net Assets (see note 9 for details). The unrealised appreciation /depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on futures contracts" (see note 9 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on futures contracts" (disclosed at year end only).

#### (k) Credit default swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. The credit default swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Net Assets (see note 10 for details). The unrealised appreciation /depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on credit default swaps" (see note 10 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on credit default swaps" (disclosed at year end only).

#### (l) Equity variance swaps

An equity variance swap is a bilateral agreement in which each party agrees to exchange cash flows based on the measured variance of a specified underlying asset. One party agrees to exchange a "fixed rate" or strike price payment for the "floating rate" or realised price variance on the underlying asset with respect to the variance notional amount. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price variance of the underlying asset and the strike price multiplied by the variance notional amount. Equity variance swaps are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on equity variance swaps" (see note 11 for details). Realised gains/(losses) and changes in unrealised appreciation /depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on equity variance swaps" (disclosed at year end only).

#### (m) Volatility swaps

A volatility swap is a bilateral agreement in which each party agrees to exchange cash flows based on the measured volatility of a specified underlying asset. One party agrees to exchange a "fixed rate" or strike price payment for the "floating rate" or realised price volatility on the underlying asset with respect to the volatility notional amount. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price volatility of the underlying asset and the strike price multiplied by the volatility notional amount. Volatility swaps are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on volatility swaps" (see note 12 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on volatility swaps" (disclosed at year end only).

### 2. Summary of Significant Accounting Policies (continued)

#### (n) Inflation linked swaps

An inflation linked swap is a swap used to transfer inflation risk from one party to another through an exchange of cash flows. In an inflation linked swap, one party pays a fixed rate on a notional principal amount, while the other party pays a floating rate linked to an inflation index. Inflation linked swaps are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on inflation linked swaps" (see note 13 for details). Realised gains/(losses) and changes in unrealised appreciation /depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on inflation linked swaps" (disclosed at year end only).

#### (o) Interest rate swaps

An interest rate swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. The interest rate swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Net Assets (see note 14 for details). The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on interest rate swaps" (see note 14 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation /depreciation on interest rate swaps" (disclosed at year end only).

#### (p) Equity swaps

An equity swap is a derivative transaction in which the Fund and the counterparty enter into an agreement whereby one party pays the returns generated by an equity or a basket of equities. The other party pays interest based on the agreed notional amount of the transaction. The value of equity swap transactions is the net present value of all cash flows, both inflows and outflows. Equity swaps are recorded in the Statement of Net Assets (see note 15 for details). The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on equity swaps" (see note 15 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on equity swaps" (disclosed at year end only).

#### (q) Commodity swaps

A commodity swap is similar to a Fixed-Floating interest rate swap. The difference is that in an interest rate swap the floating leg is based on standard interest rates such as LIBOR, EURIBOR etc. but in a commodity swap the floating leg is based on the price of underlying commodity index. No commodities are exchanged during the trade. Commodity swaps are marked-to-market using valuation sources/methods and the fair value is recorded on the Statement of Net Assets under "Unrealised gain/(loss) on commodity swaps" (see note 16 for details). The realised gains/(losses) and change in unrealised gains and losses are shown in the "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and the "Net change in unrealised appreciation/depreciation on commodity swaps" respectively in the Statement of Operations and Changes in Net Assets (disclosed at year end only).

#### (r) Total return swaps

A total return swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Fund enters into unfunded swap agreements on behalf of the particular sub-fund. Total return swaps are marked-to-market using valuation sources/methods and fair value is recorded in the Statement of Net Assets. Total return swap positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the total return swaps. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on total return swaps" (see note 17 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on total return swaps" (disclosed at year end only).

#### (s) Swaps on futures

The swaps on future is a financial contract whereby one party agrees to pay another party a fee or a premium depending on the underlying futures price at close compared to the underlying futures price at open and whether they are long or short. The Fund enters into unfunded swap agreements on behalf of the particular sub-fund. Swaps on futures are marked-to-market using valuation sources/methods and the fair value is recorded in the Statement of Net Assets. Swaps on future positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the swaps on future. The unrealised appreciation /depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on swaps on future" (see note 18 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on swaps on futures" (disclosed at year end only).

#### (t) Options

A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon price ("strike price") to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller.

Purchased options – Premiums paid by the Fund for purchased options are included in the Statement of Net Assets as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as unrealised appreciation or depreciation. If the option is allowed to expire the Fund will lose the entire premium it paid and record a realised loss for the premium amount. Premiums paid for purchased options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain/loss or cost basis of the security.

## Notes to the Financial Statements (continued)

### 2. Summary of Significant Accounting Policies (continued)

#### (t) Options (continued)

Written options - Premiums received by the Fund for written options are included in the Statement of Net Assets. The amount of the liability is adjusted daily to reflect the current market value of the written option and the change in market value is recorded as unrealised appreciation or depreciation. Premiums received from written options that expire are treated as realised gains. The Fund records a realised gain or loss on written options based on whether the cost of the closing transaction exceeds the premium received. If a call option is exercised by the option buyer, the premium received by the Fund is added to the proceeds from the sale of the underlying security to the option buyer and compared to the cost of the closing transaction to determine whether there has been a realised gain or loss. If a put option is exercised by an option buyer, the premium received by the option seller reduces the cost basis of the purchased security. Written uncovered call options subject the Fund to unlimited risk of loss. Written covered call options limit the upside potential of a security above the strike price. Written put options subject the Fund to risk of loss if the value of the security declines below the exercise price minus the put premium.

Outstanding options traded on a regulated market are valued based on the closing price or the last available market price of the instruments. OTC options are marked to market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty. The unrealised gain/(loss) on options is included in the Statement of Net Assets (see note 19 for details).

The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on options/swaptions" (see note 19 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on options/swaptions" (disclosed at year end only).

#### (u) Swaption

A swaption (swap option) is the option to enter into an interest rate swap or some other type of swap. In exchange for an option premium, the buyer gains the right but not the obligation to enter into a specified swap agreement with the issuer on a specified future date. There are two different kinds of swaptions: a payer swaption and a receiver swaption. In a payer swaption, the purchaser has the right, but not the obligation, to enter into a swap contract where he becomes the fixed-rate payer and the floating-rate receiver. A receiver swaption is the opposite; the purchaser has the option to enter into a swap contract where he will receive the fixed rate and pay the floating rate. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on options/swaptions" (see note 19 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on options/swaptions" (disclosed at year end only).

#### (v) Margin Accounts

Margin accounts represent the variation margin held at brokers for futures contracts, interest rate swaps, equity swaps and credit default swaps. Margin is only applicable to centrally cleared positions.

#### (w) Cross Investments

Cross sub-fund investment holdings were not eliminated from the combined figures. At 29 February 2020, the total cross sub-fund investment holdings are as follows:

Invesco Bond Fund amounted to USD 4,211,354 into Invesco Active Multi-Sector Credit Fund.

Invesco Euro Bond Fund amounted to EUR 8,600,025 into Invesco Active Multi-Sector Credit Fund (USD equivalent (year end rate 1 USD=EUR 0.9098) is USD 9,452,690).

Invesco Euro Short Term Bond Fund amounted to EUR 1,729,328 into Invesco Active Multi-Sector Credit Fund (USD equivalent (year end rate 1 USD=EUR 0.9098) is USD 1,900,785).

Invesco Global High Income Fund amounted to USD 14,279,496 into Invesco Active Multi-Sector Credit Fund.

Invesco Global Investment Grade Corporate Bond Fund amounted to USD 11,083,052 into Invesco Active Multi-Sector Credit Fund.

Invesco Real Return (EUR) Bond Fund amounted to EUR 421,151 into Invesco Active Multi-Sector Credit Fund (USD equivalent (year end rate 1 USD=EUR 0.9098) is USD 462,907).

Invesco Global Moderate Allocation Fund amounted to USD 135,185 into Invesco Active Multi-Sector Credit Fund.

Invesco Global Conservative Fund amounted to EUR 3,028,500 into Invesco Global Equity Market Neutral Fund (USD equivalent (year end rate 1 USD=EUR 0.9098) is USD 3,328,766).

Invesco Global Targeted Returns Fund amounted to EUR 2,125,219 into Invesco India All-Cap Equity Fund (USD equivalent (year end rate 1 USD=EUR 0.9098) is USD 2,335,928).

Invesco Global Targeted Returns Select Fund amounted to EUR 169,812 into Invesco India All-Cap Equity Fund (USD equivalent (year end rate 1 USD=EUR 0.9098) is USD 186,648).

Therefore the Total Combined Net Assets at year end, if these cross investment holdings were eliminated would have amounted to USD 51,506,934,427.

#### (x) Capital gains tax on investment

##### Indian Capital Gains Tax:

The India Finance Bill, 2018 introduced a 10% tax (plus surcharge and cess) on long term capital gains from the disposal of Indian listed securities with effect from 1 April 2018. Prior to this, long term capital gains were exempt from tax in India provided securities transaction tax had been paid. Short term gains continue to be subject to tax of 15% (plus surcharge and cess).

## Notes to the Financial Statements (continued)

### 2. Summary of Significant Accounting Policies (continued)

#### (y) Other debtors/Other creditors

The Other debtors line on the Statement of Financial Position can include prepaid sundry fees, accrued income and prepayments.

The Other creditors line on the Statement of Financial Position can include distributions payable, management fees payable, accrued expenses, accrued capital gains tax payable and accrued sundry fees.

### 3. Management and Investment Manager Fees

The Directors of the Fund (the "Directors") are responsible for the investment policy, management and administration of the Fund. The Directors delegate the day-to-day investment management of the securities portfolio of the Fund to Invesco Management S.A. (the "Management Company").

In following the investment policy, the Management Company has delegated the investment management services, as appropriate, to Invesco Advisers Inc. in the United States, Invesco Asset Management Deutschland GmbH in Germany, Invesco Asset Management Limited in the United Kingdom, Invesco Canada Ltd. and Invesco Hong Kong Limited. Each such investment manager may then in turn have sub-delegated the investment management services to any of the aforementioned entities, Invesco Asset Management (Japan) Limited or Invesco Asset Management Singapore Ltd.

For its services the Management Company is paid by the Fund a percentage of the Net Asset Value of each share class of each sub-fund as set out in the table below:

| Sub-fund  | Management<br>Fee Class<br>A | Management<br>Fee Class<br>B<br>(includes a<br>1%<br>Distribution<br>fee) | Management<br>Fee Class<br>C | Management<br>Fee Class<br>E | Management<br>Fee Class<br>I | Management<br>Fee Class<br>P1/PI1 | Management<br>Fee Class<br>R<br>(includes a<br>0.7%<br>Distribution<br>fee) | Management<br>Fee Class<br>S | Management<br>Fee Class<br>Z |

\*Out of this Service Agent Fee, the Management Company discharges the fees of the Administration Agent, the Domiciliary & Corporate Agent and the Registrar & Transfer Agent as well as fees of service providers and fees incurred in places where the Fund is registered. Each of these fees shall be calculated on each Business Day on the Net Asset Value of the sub-funds (at a rate which shall be agreed from time to time with the Management Company) and paid monthly. Additionally, the Management Company reimburses the expenses of the Fund's Hong Kong Sub-Distributor and Representative.

The rates stated are the actual rates charged over the reporting period. The maximum rates that may be charged are detailed in the Prospectus for each sub-fund.

There is no annual service agent fee charged for "I" shares.

The Depositary will be paid a fee calculated on a monthly basis at a rate of up to a maximum of 0.0075% per annum of the Net Asset Value of each sub-fund on the last Business Day of each calendar month (or at such higher rate as the Custodian and the SICAV may at any time agree), plus VAT (if any) and will be paid monthly. In addition, the Depositary will charge each sub-fund safekeeping and servicing fees at varying rates, depending on the country in which the assets of a sub-fund are held and currently ranging from 0.001% to 0.45% of the Net Asset Value of the assets invested in such country, plus VAT (if any), together with charges at normal commercial rates in respect of investment transactions, as agreed with the SICAV from time to time. Sub-custodian fees are paid out of these safekeeping and servicing fees.

## Notes to the Financial Statements (continued)

### 5. Tax Status

#### Luxembourg

The Fund is registered under Luxembourg law as a collective investment undertaking. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Fund. It is, however, subject to an annual "taxe d'abonnement" calculated at an annual rate of 0.05% of the Net Asset Value. "I" and "S" share classes are subject to a reduced annual rate of 0.01% of the Net Asset Value, such tax being payable quarterly on the basis of the Net Asset Value of the sub-funds at the end of the relevant quarter.

No subscription tax is held on underlying Luxembourg funds already submitted to "Taxe d'abonnement".

For the year ended 29 February 2020, USD 26,705,275 was charged in relation to Luxembourg tax.

#### Belgium

The Fund is registered with the Belgium Financial Services and Markets Authority in accordance with Article 154 of the Law of 3 August 2012 relating to financial markets. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925% on the net asset value of shares distributed in Belgium via Belgian intermediaries as at 31 December of the previous year, with effect from 1 January 2014. As a precautionary measure, the Fund filed a claim with the Belgian tax authority and the Brussels Court of First Instance for the tax to be refunded. At this stage, it is not possible to prejudge the outcome of the dispute or any reimbursement in favour of the Fund. In a similar case, the Belgian State appealed to the Court of Cassation against the Court of Appeal's rulings in favour of the plaintiff. The case is still pending.

For the year ended 29 February 2020, USD 899,525 was charged in relation to Belgian tax.

#### Withholding Tax

Further to a number of rulings of the European Court of Justice regarding taxation withheld on overseas dividends, the Management Company has taken steps to make claims with certain European Tax Authorities for repayment of taxation suffered on foreign dividend income. Due to the uncertainty regarding the likely success of the claims, it is not possible to estimate the potential amount of overseas withholding tax that may be received and these are recorded on cash basis.

### 6. Reimbursement of Withholding tax claim

For the year from 1 March 2019 to 29 February 2020, there were no reimbursements of withholding tax reclaims for any of the sub-funds.

### 7. Dividends

In accordance with the distribution policy of the Fund, income is distributed by way of a dividend payment, only to holders of Distribution Shares.

The Fund at its absolute discretion has the power to issue certain classes of Shares that offer a fixed distribution. The following table lists the sub-funds and these classes of shares available at 29 February 2020 :

### 20. Swing Pricing Policy

Securities are valued as outlined in note 2(b). However, in order to mitigate the effects of dilution, the Fund has implemented a policy of "Swing Pricing" as from December 18, 2007. The Swing Pricing mechanism may be applied against all sub-funds of the Invesco Funds.

In the best interest of Shareholders, the Directors may allow for the Net Asset Value to be adjusted, using bid or ask market quotation rather than mid, depending on the net share activity arising from subscriptions, redemptions or switching in a sub-fund for a given business day.

The sub-funds operate partial swing only. That is, the sub-funds will not swing to either a bid or ask price basis daily, but only when a pre-determined level of shareholder activity is exceeded. In such circumstances the NAV of the relevant sub-fund may be adjusted by an amount not exceeding 2.00%. High redemption level triggers a swing to a bid price basis, whereas high subscription level triggers a swing to ask price basis. The Directors have the ability to place a sub-fund on constant swing depending on the recent trends in a sub-fund.

### 21. Changes in Investments

A list, specifying for each investment the total purchases and sales which occurred during the year under review, may be obtained, upon request and free of charge, at the Registered Office and the Hong Kong Representative Office of the Fund.

### 22. Stock Lending

As at 29 February 2020, there were no securities on loan or cash and securities held as collateral in respect of securities on loan for any of the sub-funds.

### 23. Soft Commissions & Related Party Transactions

Certain subsidiaries of Invesco Ltd. (the "Group") consistent with obtaining the best net result, including best execution, may enter into agreements with counterparties whereby those counterparties may make payments for investment services provided to the Group.

Investment services are used by the Group to improve or add to the services provided to its clients. Although each and every service may not be used to service each and every account managed by the Group, the Group considers that those investment services received are, in the aggregate, of significant assistance in fulfilling its investment responsibilities and are of demonstrable benefit to all clients. Only services that assist in the provision of investment services to the Group's clients will be paid for by counterparties.

Allowable investment services include services that provide assistance to the Group in its investment performance. Those services include, but are not necessarily limited to, furnishing analysis, research and advisory services including economic factors and trends, portfolio valuation and analysis, performance measurement, market prices services and the use of specialised computer software and hardware or other information facilities.

The Group will ensure adherence to its investment decision making responsibilities to its clients in accordance with the laws of the countries that have jurisdiction over its clients or business. This may vary in application with respect to the appropriateness of those investment services provided.

The Group selects counterparties to execute transactions on the basis that transactions will only be executed provided the placing of orders will not operate against the best interest of the Group's clients and that the multiple is at a level which is generally accepted market practice. The Group will endeavour to obtain best execution on all transactions for all clients.

The Group will endeavour to maintain the highest possible regulatory standards worldwide.

### 24. Collateral

As part of its investing in derivatives the Fund may pledge or receive collateral either in the form of cash and cash equivalents or securities.

As at 29 February 2020, cash collateral that has been pledged to cover obligations of the Fund and cash collateral received from the counterparty, is reported on the next page:

For the year end 29 February 2020, the Fund did not pay broker fees/commissions on bond transactions. In accordance with bonds market practice, a "bid-offer" spread is applied on the transaction prices. According to this principle, the sale price applied by the broker is not the same as the purchase price, the difference corresponding to the remuneration of the broker.

### 26. Subsequent Events

On 23rd March 2020, the criteria to implement Redemption Limits on the Developing Markets SRI Equity Fund was met. In line with the terms of the prospectus, a decision was taken to limit the total amount of shares to be redeemed to the relevant Redemption Limit, and all redemption requests were reduced on a pro-rata basis. The unfulfilled redemption requests were carried forward and effected, on a pro-rata basis, on each successive dealing day (together with other redemption requests received on each such successive dealing day), until the outstanding redemption requests were discharged in full. The Redemption Limit process was completed on March 31st 2020.

### Managing the risks presented by the outbreak of Coronavirus

The spread of a new coronavirus (COVID-19) disease has caused significant volatility within the global economy and financial markets. To date, the primary focus of our response has been threefold:

- to ensure the health and safety of our employees;
- to preserve our ability to serve our clients; and
- to appropriately manage client assets in a highly dynamic market environment.

We have established cross-functional teams in each region (Americas, Asia Pacific and EMEA) that are monitoring the situation globally and regionally. These teams, which namely include representatives from Distribution, Portfolio Management, Trading, Technology/Operations, Human Resources, Business Continuity, Compliance, are taking steps to ensure an appropriate and effective response during a highly fluid situation.

We have considered whether there are any financial contingencies and have determined that there are no commitments, contingent liabilities or balances after the reporting period to be disclosed at this stage. The Directors of Invesco Management S.A. are actively monitoring the situation and, with the support of the investment managers, continue to manage the Fund's assets within its investment and risk parameters that have been established. The Directors will continue to review the situation in order to navigate through this period of heightened uncertainty.

There were no other subsequent events after the financial year ended 29 February 2020.

## Audit Report

### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Invesco Funds (the "Fund") and of each of its sub-funds as at 29 February 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### What we have audited

The Fund's financial statements comprise:

- the statement of net assets as at 29 February 2020;
- the statement of investments as at 29 February 2020;
- the statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

---

### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds to cease operations, or has no realistic alternative but to do so.

**Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund’s or any of its sub-funds’ ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Calculation Methods of the Risk Exposure

Following the assessment of the Investment and Policy of each Fund and its exposure to financial derivatives instruments, Risk Management Function (RMF) decides the methodology to apply for global exposure calculation. For Funds under commitment approach, RMF calculates Value-at-Risk (VaR) as internal risk measurement to monitor the Fund's market risk exposure in depth; For Funds under Value-at-Risk approach (VaR), RMF calculates the Commitment exposure in case of requirement from the local regulators where the Funds are registered and distributed. Commitment exposure is calculated as the sum of the equivalent positions in the underlying assets of the derivatives held in the Fund, where the equivalent positions are calculated using the conversion methodologies outlined in Box 2 of ESMA Guideline 10-788 and additional arrangements to adjust the exposure are taken into account.

Value-at-Risk (VaR) is a statistical measurement. It intends to measure the maximum potential loss at a given confidence level (probability) over a specific time period under normal market conditions. All of the positions within the portfolio are taken into account for the VaR calculation, not just derivatives.

Absolute and Relative VaR are calculated daily using a VaR risk model based on a two years historical simulation methodology. This method for calculating VaR contains no standard distribution assumption and assumes that history repeats itself.

The calculation standards used for the VaR model are in compliance with the provisions in box 15 of ESMA Guidelines on Risk Measurement and the calculation of Global Exposure and Counterparty Risk for UCITS (Ref:10-788) ("ESMA Guidelines").

The Absolute VaR of a UCITS cannot be greater than 20% of its NAV. The Relative VaR of a UCITS cannot be more than 2 times the VaR of the reference portfolio. Invesco Management S.A. monitors that the VaR of the UCITS / 2\* VaR of the reference portfolio is not greater than 100%.

## Other Information (unaudited) (continued)

### Calculation Methods of the Risk Exposure (continued)

The calculation of the Absolute and Relative VaR is carried out in accordance with the following parameters:

- one-tailed confidence interval of 99%;
- holding period equivalent to 1 month (i.e. 20 business days);
- effective observation period (history) of risk factors of 2 years;
- daily calculation.

In line with box 25 of ESMA Guidelines, as the sub-funds use the VaR approach to monitor the global exposure, Invesco Management S.A. calculates the leverage for each sub-fund on a daily basis, as the sum of the absolute value of the notionals of the derivatives used. With respect to financial derivative instruments which do not have a notional value attached to them, the calculation of the value is based upon the market value of the equivalent position of the underlying asset that is attached to the financial derivative instrument and applied consistently and appropriately.

The average level of leverage figures provided below does not take into account any netting and hedging arrangements that the sub-funds may have in place at any time even though these netting and hedging arrangements are used for risk reduction purpose.

The table below details the VaR approach for each sub-fund and for those sub-funds utilising the relative VaR methodology, it details the reference portfolio. The table also details the minimum, maximum and average daily VaR utilisation that occurred during the one year period ending 29 February 2020, as well as the daily average level of leverage for each sub-fund during the one year period ending 29 February 2020.

### Remuneration Policy

Invesco Management S.A. (the "Management Company") has adopted a remuneration policy which is consistent with the principles outlined in the European Securities and Markets Authority (ESMA) Guidelines on sound remuneration policies under the UCITS Directive.

The policy was revised in 2019, to include specificities for some Invesco EU regulated Management Companies. The Management Company was not materially impacted by the changes.

The purpose of the remuneration policy is to ensure the remuneration of the staff of the Management Company is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager and of the UCITS it manages and does not impair the Management Company's compliance with its duty to act in the best interests of the UCITS it manages. The Management Company's summary remuneration policy is available on our website ([www.invescomanagementcompany.lu](http://www.invescomanagementcompany.lu)) The Management Company's full remuneration policy is available for free from the registered office (see address page 2) upon request.

The remuneration policy is reviewed annually by the Compliance, Human Resources and Risk Management functions who recommend any adjustments to ensure continued alignment of the policy with sound risk management. The board of directors of the Management Company is responsible for the oversight of remuneration and for ensuring adherence to this policy through the Human Resources function.

The Internal Audit function conducts regular testing of administration of the remuneration policy to assess its ongoing compliance with the Invesco Group's remuneration policies and procedures.

The aggregate total remuneration for the staff of the Management Company during performance year 2019 (1st January to 31st December 2019) is EUR 3.25m of which EUR 2.79m is fixed remuneration and EUR 0.46m is variable remuneration. The number of beneficiaries is 22.

The Management Company has identified individuals considered to have a material impact on the risk profile of the Management Company or the UCITS it manages (Identified Staff), who include board members of the Management Company, senior management, heads of control functions, other risk takers and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers.

The aggregate total remuneration paid to the Identified Staff of the Management Company for UCITS related activities for the performance year 2019 (1st January to 31st December 2019) is EUR 18.90m of which EUR 4.01m is paid to Senior Management and EUR 14.89m is paid to other Identified Staff. Please note the total remuneration for Identified Staff of the Management Company for UCITS related activities includes remuneration for staff employed by delegates.
